

# Casel's Cares

## An update from Casel's

First, let me say thank you to all our customers for your patience and loyalty during these past months. Your encouraging words makes our jobs easier, as does following New Jersey rules by wearing masks and continuing to social distance. Our staff is working hard to provide you with the best possible shopping experience while keeping you and our employees as safe as possible.

I would like to inform you of what Casel's will be doing in the coming weeks (or possibly the entire Summer), since no one can predict what will happen.

Our Summer hours will begin as of May 21<sup>st</sup>. Monday through Friday we will be open 8 am – 10 pm. Saturday's will be 7 am – 10 pm. Sunday's will be 7 am – 8 pm. We recommend shopping first thing in the morning or after 8 pm if you have a significant social distancing concern. We have seen many supermarkets recommend that you consider shopping with as few people as necessary, which includes leaving your young children at home (if possible). To avoid overcrowding we will be limiting the number of customers in the store at any one-time starting Thursday, May 21<sup>st</sup>. We are hiring an outside service to monitor this for us. We haven't worked out all of the logistics yet, but you will know more by next week.

As we have done these past weeks, we will not be opening the deli for the near future. We will be pre-slicing all our selections in the cases by the deli. Every meat item, every fish item, every salad item, every cheese item and every sandwich will be available for you to pick up and go.

We plan to have all our registers open which will enable you to expediently check out. We do not anticipate making you stand in one line and then to proceed to the register. We feel that limiting the number of customers in the store and opening all the registers should allow for social distancing. We will be marking the floors to help guide you through the check-out process.

Our curbside deliveries will be available seven days a week. Please be aware that the day you call in, you will be scheduled for the next available day that is able to accommodate your order.

We are still experiencing issues with our supply chain and do not anticipate it improving. We are doing the best we can to supply you with the items you desire.

As we go forward, we will be sure to keep you updated. We wish you and your family safety and good health in the weeks ahead.
